digital upright pianos

2020

K6S

DP260

The entry-level model of Medeli has got all functions for the novice & more experienced pianist. With 16 great quality voices this piano gives you everything you need. Don't be misled by the minimalistic design because all functions are hidden under the keys!

DP280K

The "K" stands for a professional keybed. Just like the DP260 this piano has few bells and whistles. Every voice and function can be easily accessed with the [Function] button and the piano keys. This elegant piece is a must-have for music lovers!

K8

K6

DP330

Do you prefer the big variety of voices on a keyboard, but also want 88 keys with hammer action? Then the DP330 is the right choice for you! Due to the many rhythms and sounds, easy interface and much more, the DP330 is a super versatile instrument!

DP460K

The control panel is easy to use. Behind the music stand you'll find all the options you'll need to connect your phone or computer. The keyboard is very sensitive so you'll hear every nuance. Furthermore the DP460K is equipped with refined piano accompaniments.

K8

K8

DP650K

The biggest upright piano in the Medeli range comes with a K8 keybed. Due to its strong speakers, you'll really feel the bass. All connections are easy to access on the front panel. Playing this piano is a real experience!

GRAND510

This eye-catcher combines power and beauty. You can even use this piano as a bluetooth speaker. The powerful omni-directional speakers create a realistic grand piano experience. The operation is well arranged, so you can quickly browse through all sounds.

K8

Keybed

The in-house developed keybed K6 is the standard in Medeli's digital pianos and even gives the skilled pianist a realistic experience. The K6S keybed offers an even more convincing piano feel. The graded hammer action keybed offers a heavier touch on the bass notes and a softer touch on the treble notes. The pianos with a 'K' in the model name are equipped with a K8 keyboard. This extremely realistic keybed captures every nuance. The keys are made with a nice ebony and ivory feel.

Hammer action	✓	✓	✓
Graded keybed		✓	✓
Escapement structure (hammer 'clicks' when you play softly)			✓
Ivory & Ebony texture			✓
2 sensors	✓	✓	
3 sensors			✓

Twinova

What is more fun than making music together? With the Twinova function on the Medeli pianos you can split the keyboard into two mini pianos. The left pedal will change to a second sustain pedal for the left half of the piano. Twinova is a great feature for playing quatre-mains or for educational purposes.

A5 Chip

The DP460K and DP650K are equipped with the Medeli A5 chip. This chip has got 11 cores and therefore handles difficult algorithms with ease. Think about effects, multiple instruments, filters, vocal effects and so much more!

Colors

The pianos are available in the following colors:

black

rosewood

white satin
