Corelli Alliance Vivace

New playing and auditory sensations:

- A very fast and accurate response under bow action in pianissimi, fortissimi, spiccato, sautillé, staccato passages...
- Increased possibilities for nuances under the slightest bow pressure
- An easy emission in all the positions, which offers maximum comfort and reliability
- A perfectly defined elasticity and stiffness which generate depth, density of sound and give the feeling of volume
- A rich and clear sound in all the positions all the way up the fingerboard
- A perfect balance of sound throughout the instrument range, with an easy transition from string to string.

The secret

- The alliance of exclusive High-tech materials : a composite multifilament core wrapped with a combination of sophisticated metal wires
- Highly reliable accuracy of the manufacturing process guaranteed by laser control
- Specific training of workers over several years

A level of quality never before reached

The warmth and focus of the best gut strings with the advantages of composite fibers:

- The texture, tone accuracy and more upper harmonics
- Great lifespan and string capacity to retain its sound qualities
- Insensitivity to humidity and variations in temperature

The string settles in very quickly and offers a perfect steadiness.
The sound of the Alliance Vivace is indisputably similar to gut strings.
